### 1.4 – Feedback System

#### 1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

#### 1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>•The aim of education is to provide knowledge, kindle creative spirit, hone individual skills and discipline the mind. So, curriculum designing is carried out with much care accommodating all these aspects. • Curriculum is revised once in two years for the under graduate courses and once in two years for Postgraduate courses. Since Curriculum is the foundation where upon the future of not only the students, but also the nation is built on due diligence is applied in the process of design and development of the curriculum. •Board of Studies (BOS) is constituted for each programme of study. •This Board comprises of University Nominees, Subject Experts and all the Faculty Members of the institution. • Alumnus and Industrial expert are also part of the BOS. The Board makes a thorough analysis of the existing syllabus. •The issues related to the revision are discussed leaving no scruple. •Feed back is one of the most essential factors in rejuvenating the institution and keeping it vibrant.</p>

•Therefore, structured feedback is designed and obtained from students, staff, external examiners, alumni and employers. Necessary inputs are given to the Board of Studies while revamping the syllabus. Feedback given by the students regarding various components of the syllabus is recorded, analysed and to the maximum extent accommodated in the revision of the syllabus. •Alumni are the privileged section who are in constant touch with the institution. •Their feedback is obtained from their periodical visits, Convocation and while they act as Member of Board of Studies. •Their feedback is deemed to be significant and the Board makes the revision taking into consideration their suggestions. • Feedback received from the Faculty at the time of BOS is also given due consideration as they are the sculptors of the posterity. • They provide valuable proposals keeping in mind the recent progressions that take place in their respective area of specialization. •Feedback provided by the parents during Parents Meeting with mentors and Head of the Departments is also taken into account and implemented as far as feasible. • Feedback provided by the Employers during Campus Recruitment and Board of Studies is of paramount importance. •Since every student aspires to find an ideal placement, the curriculum should offer him the scope for such a placement. • So, the feedback of the Employers regarding their requirements is exhaustively incorporated in the syllabus. • Thus the institution intensifies the employability of the students.

## 2.2 – Catering to Student Diversity

### 2.2.1 – Student - Full time teacher ratio (current year data)

Year	Number of students enrolled in the institution (UG)	Number of students enrolled in the institution (PG)	Number of fulltime teachers available in the institution teaching only UG courses	Number of fulltime teachers available in the institution teaching only PG courses	Number of teachers teaching both UG and PG courses
2017	4394	621	60	0	201

## 2.3 – Teaching - Learning Process

### 2.3.1 – Percentage of teachers using ICT for effective teaching with Learning Management Systems (LMS), E-learning resources etc. (current year data)

Number of Teachers on Roll	Number of teachers using ICT (LMS, e-Resources)	ICT Tools and resources available	Number of ICT enabled Classrooms	Number of smart classrooms	E-resources and techniques used
261	258	150	20	17	26

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Students mentoring system is the base of proper functioning of the institution. In order to create personal rapport between teacher and students, to establish the one to one relationship and to analyse the strength, weakness, opportunities and threats of the students, students mentoring system is used as a tool. Each staff member of the institution is allotted about 20 students of their respective classes. Mentors closely follow and improve the level of academic performance, psychological wellbeing, class attendance and general behaviour of the students. A register is maintained by each mentor with the details of the mentee, including a passport size photograph and details of all academic performance. Parents are informed about the strength and weakness of the students. Parents are asked to monitor the academic performance of the students. They are asked to keep in touch with the Head of the Department and the respective mentors. Parents Meetings are conducted periodically. Mark Sheets are given to the parents personally by the Mentors after the results are published. Suggestions for the

academic improvement of the students are discussed with the parents. Feedback is also collected from parents and remarks are noted in mentor form. Staff members motivate and accompany the students in participating in seminars, workshops and conferences. Mentoring system enhances the students' confidence and challenges them by setting higher goals, and ultimately guides them to achieve higher levels. Mentors act as role models and facilitate leadership by developing the interpersonal skills and helping students thrive in competitive environments.

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio
5015	261	1:19

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

'A leader is one who knows the way, goes the way and shows the way' and hence making the leadership quality among the students is one of the major roles of the institution. The institution has 'college union' comprised of General Secretary, Joint Secretary, secretaries for Science Association, History Association, Economics Association, Commerce Association, Tamil Ilakiya mandram, and English literary Association, Secretary and Jointsecretary for Sports, and Secretary and Jointsecretary for Fine Arts for representing the student requirements. Each class has representative of one male and one female student for dealing class affairs. The college union holistically works for the welfare of the students and conduct meetings to enhance the recent development in the subjects and skill development. Students are assigned various responsibilities like proactive member in Academic Council, AntiRagging Committee, etc. The students are assigned responsibility as leader or representative in Department Associations, Clubs, Forums, NSS, NCC, PEKAK, YRC, Hostel Committee, Exnora etc. The department clubs/association/forum are lead by the students and they organize meeting and events. The student journal Viscom Times, Globus, Pekak Plumes and Senkanthal are edited and released by the student editorial board members. The 32 years old 'Ilanthoothu' magazine is being run by the students, for the students and of the students. Yearly two

issues are released in a mega function organised by the students by inviting media celebrities. All the arrangements of academic, administrative, financial, social and domestic requirement for the function and the publication of the book are undertaken by a bunch of young talented youths. Student members of Fine arts and Sports bring laurels to the institution through exhibiting their talents in numerous programmes. Student volunteers are grouped with leader and are given responsibilities while organizing intercollegiate and other programs to assist and monitor hospitality of the inmates and participants. NSS, PEKAK and other service organization leaders of the respective unit involve their subordinates in different service in the adopted villages around the college locality. NSS leaders and volunteers exhibit their social responsibilities by rendering their valuable service during Festival season and Temple Festivals. NCC cadets promote patriotism among the students by rendering their service during Independence day, Republic day, the observance of Pulwama Attack and Flag day. During College day and Sports day, NSS leaders and NCC cadets are deputed to maintain and monitor disciplinary measures in the campus. The Sports day attains a special glamour by students' involvement in monitoring the track, assuming the captainship of various houses and helping to conduct matches. All the service organization leaders and volunteers take part in the institutional annual awareness rally. The hostel administration is supported by students who form the mess committee to decide the daily menu depending on the cost benefit principles. Student leaders and volunteers from various service organizations stand as a "role model" in blood donation, environmental protection and nurturing discipline to the rest of the students.

## **CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**

### **6.1 – Institutional Vision and Leadership**

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Institution implements Decentralization and Participative Management. The successful outcomes of the institution are achieved through combined efforts of all individuals who work towards attaining the vision and mission of the institution. The members from the apex to bottom including all the stakeholders have a role to play in building an institution. Every individual involvement and cooperation in devising and implementing decision making policies for academic and administrative affairs through various bodies and committees have contributed to the growth of the college. Practice 1: Participative management: The college promotes the culture of participative management at different levels viz., strategic level, functional level and operational level. Strategic level: The Governing body, Management, Principal, Staff council, IQAC and RD Cell define policies and procedures, framing guidelines and rules regulations pertaining to admission, examination, discipline, grievance, support services, finance, etc., Functional level: Faculty members share knowledge among themselves, students and staff members while working for achieving the tasks and goals. Principal, HoD, Faculty members, Student leader and representatives participate in different roles to yield the fruitful outcome. Operational level: Principal interacts with government and external agencies, faculty members, concerned sections of parent university. Students and nonteaching staff members join hands with the Principal and faculty for the execution of different academic, administrative, extension related, co and extracurricular activities. Practice 2: Decentralization of power for extending service to community: Several service organizations are involved to carry out extension activities viz., NSS, NCC, PEKAK, YRC, RRC, EXNORA student wing, Internal Compliance Committee, Consumer Club, Leo Club, Junior Jaycees, Rotaract, etc., Staff members act as coordinators and advisors and students serve as leaders and volunteers in these service channels. To carry out the extension work, the college has collaborations with Local bodies, Police Department, District administrations, NGOs, Local administrations, Religious Bodies, Government Hospital, 108 Ambulance Service, Rural community Public Health Departments, Alumni members, Forest Department, Temple Administrations for providing the community services to needy people. The decentralization of the power to different position of individuals increases the responsibilities and provides opportunity to achieve the task successfully and very effectively.

## 7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

- Solar Energy Awareness
- Plastic free zone campaign
- Campus Green Auditing with Student Exnora
- Rainwater harvesting
- Usage of flex boards prohibition
- Vermiculture
- Solid waste management

## 7.2 – Best Practices

## 7.2.1 – Describe at least two institutional best practices

**Practice 1: Sharpening the Employability Skills and Enhancing the Placement Opportunities**  
**Goal:** Many students lack employability skill due to inadequate practical knowledge, lack of exposure, inhibition to talk. Purpose is to sharpen the soft skills to perform well in interview and to get placement.  
**Processes:** Students are provided trainings to understand different types of employability skills. **Practice:** Students are asked to enroll in intensive soft skill training with 1520 resource persons with different expertise. Students understand different soft skills through experiential learning. **Evidence:** Students developed confidence and attend many campus placement interviews. Experience boosted students' self reliance tremendously. Participation in the course enhanced the healthy competitions among the students and increased interpersonal communications to establish new friendship and ultimately made them to join in the job. **Conduction of the course prior to interview made them to get placements easily.** **Problem faced:** Time for conducting course is extremely restricted and students found stressful amidst working days and caused inconvenience to parttime job holders. The financial constrain became significant for economically backward gradates. **Resource required:** To reduce the financial constrain and to make the students to attend the training CSR support are obtained. Further, students need to stay long hours during the course time.

**Practice 2: Promoting Social Responsibility and Character Building of the Students**  
**Goal:** Aims to inculcate among students the desire to serve for community and shape their character. Students are from different level of economic and social status. Most of the parents make students to be extremely comfortable which makes students to think selfishly. They should understand their social responsibilities to serve to community. **Processes:** Students are asked to enroll any one of the service organizations. Make them to understand purpose and necessity of social service and ways of providing service. Student visited adopted villages to understand life style and socioeconomic status of the people. **Practice:** Students are asked to attend many day camps to understand services which villagers require. Based on their requirements students make plan and execute community services. **Evidence:** Student planted saplings along with the villagers near to their dwellings. Also students assessed people status and suitability of getting funds from the Government schemes, loans, etc. Students conducted awareness rally, distribution of bit notices, discussion with the villagers, etc. **Problem faced:** Time spent for the service is inadequate. Availability of villagers without prior information curtails contact hours and continuous processing and monitoring **Resource required:** Financial support is restricted. Logistic/travel support to the village is major constrain.
