1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
----------	-----

Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

Curriculum should provide knowledge, kindle creative spirit, hone individual skills and discipline the mind and hence the designing is carried out with much care accommodating all these aspects. The skeleton of the curriculum is revised once in three years for the under graduate courses and once in two years for Postgraduate courses. The content of the forthcoming year is planned every year. Curriculum is the foundation where upon the future of not only the students, but also the nation is built on, due diligence is applied in the process of design and development of the curriculum. Board of Studies (BOS) is constituted for each programme of study. This Board comprises of University Nominees, Subject Experts and all the Faculty Members of the institution. Alumnus and Industrial expert are also part of the BOS. The internal members of the BoS frame the content of the papers by thoroughly analyzing their teaching, evaluation and students' interaction and feedback in the class. Then the pre-board of studies is conducted in the department by presenting the syllabus to colleagues where others views are incorporated. The external experts make a thorough analysis of the changes at the time of BoS. The issues related to the revision are discussed leaving no scruple. Feedback is one of the most essential factors in rejuvenating the institution and keeping it vibrant. Therefore, structured feedback is designed and obtained from students, staff, external examiners, alumni and employers. Necessary inputs are given to the Board of Studies while revamping the syllabus. Feedback given by the students regarding various components of the syllabus is recorded, analysed and to the maximum extent accommodated in the revision of the syllabus. Alumni are the privileged section, who are in constant touch with the institution. Their feedback is obtained from their periodical visits, convocation and while they act as Member of Board of Studies. Their feedback is deemed to be significant and the Board makes the revision taking into consideration their suggestions. Feedback received from the Faculty at the time of BOS is also given due consideration as they are the sculptors of the posterity. They provide valuable proposals keeping in mind the recent progressions that take place in their respective area of specialization. Feedback provided by the parents during Parents Meeting with mentors and Head of the Departments is also taken into account and implemented as far as feasible. Feedback provided by the Employers during Campus Recruitment and Board of Studies is of paramount importance. Since every student aspires to find an ideal placement, the curriculum should offer him the scope for such a placement. So, the feedback of the Employers regarding their requirements is exhaustively incorporated in the syllabus. Thus the institution intensifies the employability of the students. The online feedback system is introduced in this year for student feedback and Satisfaction Survey. The views expressed by the students in their satisfaction survey are analyzed and discussed and considered in different academic meetings and at the time of budget allocations.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Majority of the students are first generation graduates and economically weaker section are most of them are being exposed to English medium of instructions first time. Hence, they found it difficult to understand the system, require clarifications, etc., This situation exists for all the students at different level such as understanding the policy changes, taking decisions in the academic activities, choosing the future career, etc., as they progress in their academic classes. Student mentoring system is extremely helpful for them to overcome social hindrances and academic difficulties. So, mentoring system is the base of proper functioning of the institution. In order to create personal rapport between teacher and students, to establish the one to one relationship and to analyse the strength, weakness, opportunities and challenges of the students, students mentoring system is used as a tool. Each staff member of the institution is allotted about 20 students of their respective classes. Mentors closely follow and improve the level of academic performance, psychological wellbeing, class attendance and general behaviour of the students. A tutorial register is maintained by each mentor with the details of the mentee individually, including a passport size photograph and details of all academic performance. The students skills, hobby, talents and achievements are also noted in the form. Based on the details the mentor provides guidance of the existing systems which are useful for the individual students. Parents are informed about the strength and weakness of the students. Whenever, there is a discipline problem with a student or other issues, the mentor comes with the tutorial register and consolidated details of the

student's irregularities and performance to HoD or Principal which yield reasonable decisions. Parents are asked to monitor the academic performance of the students. They are asked to keep in touch with the Head of the Department and the respective mentors. Parents Meetings are conducted periodically. Mark Sheets are given to the parents personally by the Mentors after the results are published. Suggestions for the academic improvement of the students are discussed with the parents. Feedback is also collected from parents and remarks are noted in mentor form. Most of parents are unable to fill the form due to lack of higher education and hence the mentor and HOD discuss with them and note the points in the tutorial register. Staff members motivate and accompany the students in participating in seminars, workshops and conferences. Mentoring system enhances the students' confidence and challenges them by setting higher goals, and ultimately guides them to achieve higher levels. Mentors act as personal counsellor when the students need advice, support and suggestions from them. Mentors act as role models and facilitate leadership by developing the interpersonal skills and helping students thrive in competitive environments.

The college follows systematic procedure and policies in purchasing, maintaining and utilizing the equipment. A systematic procedure is adopted for purchase of materials. First aid boxes and Fire extinguishers are installed and maintained. Annual physical stock verification is done. LABORATORY Stock Registers (consolidated, classified and issue) are maintained for proper entry. Lab assistants are appointed. Repairs, maintenance and services are done periodically. Optimum utilization of laboratory by using pre planned lab timetables. Variety of microhabitants around the campus are also used to strengthen practicals. LIBRARY Functions between 8.00 am to 8.00 pm on all working days (Saturday: 1.30 to 5.30 pm). Stocks are arranged into science, humanities, computers, reference and competitive examinations with call number. New journals and periodicals are displayed in new arrivals rack. M.Phil. thesis are kept in a separate place as reference material. Reprographic facilities are available with subsidized charges and 16 Surveillance cameras are installed. Stock rooms are available for back volumes. Book catalog and availability can be verified with OPAC facility. Regular pest attack prevention and control measures are done. Useful newspaper clippings about the College, job, awards, research etc. are displayed. Digital library with 10 computers is available for users to access digital resources. 10 Computers to download ebooks and ejournals using INFLIBNET and DELNET databases and to access other databases. Separate reading rooms for reference section, competitive examinations, periodicals, etc. Staff and students borrow books using their ID card and attendance is by bar code entry system of ID. Conducts essay and elocution, competitions to motivate the students and award best student library user and allow library for research scholars and students of neighboring colleges. SPORTS AMENITIES Two play grounds are available with 400m running tracks and sitting gallery. Two Directors to educate and motivate students and regularly conduct trials for games and athletic events. Marker maintains playfield and supplies play kits and monitor electrification and water supply. 5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The college provides ample opportunities for the students to develop their overall skills as per their talents. 'Leadership and learning are indispensable to each other' and hence making the leadership quality among the students is one of the major roles of the institution. The institution has 'college union' comprised of General Secretary, Joint Secretary, secretaries for Science Association, History Association, Economics Association, Commerce Association, Tamil Ilakiya Mandram, and English Literary Association, Secretary and Joint Secretary for Sports, and Secretary and Joint secretary for Fine Arts for representing the student requirements. Each class has representative of one male and one female student for dealing class affairs. The college union holistically works for the welfare of the students and conduct meetings to enhance the recent development in the subjects and skill development. Students are assigned various responsibilities like proactive member in Academic

Council, IQAC, Anti-Ragging Committee, Student Aid Fund, etc. The students are assigned responsibility as leader or representative in Department Associations, Clubs, Forums, NSS, NCC, PEKAK, YRC, Hostel Committee, EXNORA etc. The department clubs/association/forum are lead by the students and they organize meeting and events. The student journal Viscom Times, Globus, PEKAK Plumes and Senkanthal are edited and released by the student editorial board members. The 33 years old 'Ilanthoothu' magazine is being run by the students, for the students and of the students. Yearly two issues are released in a mega function organised by the students by inviting media celebrities. All the arrangements of academic, administrative, financial, social and domestic requirement for the function and the publication of the book are undertaken by a bunch of young talented youths. Student members of Fine arts and Sports bring laurels to the institution through exhibiting their talents in numerous programmes. Student volunteers are grouped with leader and are given responsibilities while organizing intercollegiate and other programs to assist and monitor hospitality of the inmates and participants. NSS, PEKAK and other service organization leaders of the respective unit involve their subordinates in different service in the adopted villages around the college locality. NSS leaders and volunteers exhibit their social responsibilities by rendering their valuable service during Festival season and Temple Festivals. NCC cadets promote patriotism among the students by rendering their service during Independence day, Republic day, the observance of Flag day. During College day and Sports day, NSS leaders and NCC cadets are deputed to maintain and monitor disciplinary measures in the campus. The Sports day attains a special glamour by students' involvement in monitoring the track, assuming the captainship of various houses and helping to conduct matches. All the service organization leaders and volunteers take part in the institutional annual awareness rally. The hostel administration is supported by students who form the mess committee to decide the daily menu depending on the cost benefit principles. Student leaders and volunteers from various service organizations stand as a "role model" in blood donation, environmental protection and nurturing discipline to the rest of the students.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Institution implements Decentralization and Participative Management. The successful outcomes of the institution are achieved through combined efforts of all individuals who work towards attaining the vision and mission of the institution. The members from the apex to bottom including all the stakeholders

have a role to play in building an institution. Every individual involvement and cooperation in devising and implementing decision making policies for academic and administrative affairs through various bodies and committees have contributed to the growth of the college. Practice 1: Participative management:

The college promotes the culture of participative management at different levels viz., strategic level, functional level and operational level. Strategic level: The Governing body, Management, Principal, Staff council, IQAC and RD Cell define policies and procedures, framing guidelines and rules regulations pertaining to admission, examination, discipline, grievance, support services, finance, etc., Functional level: Faculty members share knowledge among themselves, students and staff members while working for achieving the tasks and goals. Principal, HoD, Faculty members, Student leader and representatives participate in different roles to yield the fruitful outcome. Operational level: Principal interacts with government and external agencies, faculty members, concerned sections of parent university. Students and nonteaching staff members join hands with the Principal and faculty for the execution of different academic, administrative, extension related, co and extracurricular activities. This academic year the online classes, activities and evaluations are quickly learnt by individuals due to decentralization and freedom to choose the strategies for successful outcomes which provided solution for Pandemic struck. Practice 2: Decentralization of power for extending service to community: Several service organizations are involved to carry out extension activities viz., NSS, NCC, PEKAK, YRC, RRC, EXNORA student wing, Internal Compliance Committee, Consumer Club, Leo Club, Junior Jaycees, Rotaract, etc., Staff members act as coordinators and advisors and students serve as leaders and volunteers in these service channels. To carry out the extension work, the college has collaborations with Local bodies, Police Department, District administrations, NGOs, Local administrations, Religious Bodies, Government Hospital, 108 Ambulance Service, Rural community Public Health Departments, Alumni members, Forest Department, Temple Administrations for providing the community services to needy people. The decentralization of the power to different position of individuals increases the responsibilities and provides opportunity to achieve the task successfully and very effectively. The CORONA lockdown prevented many of the offline activities. However, the students extended their support as 'Student Ambassadors' to create awareness on Corona and helping hand with police and other departments to prevent the crowds and to enforce the SOP and curfew in public places. The students started the webinar series with the support of IQAC on every Saturday evening 5.00 to 6.00 pm titled as "Enthusiastic Student: Knowledge Resource" which crosses its 40th series of webinar. The students use this platform to extend their extension activities, sharing the experiences, portraying the talents and to develop their skills.

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details

6.4 – Financial Management and Resource Mobilization

6.4.1 – Institution conducts internal and external financial audits regularly (with in 100 words each)

College undertakes Internal and external Financial Audits regularly at periodic intervals. The Chief Superintendent checks the accounts thoroughly and prepares the monthly account statement. The college Education Committee reviews and passes the monthly account in the periodical meeting. Thiru. M. Sundaramahalingam, B.Com., FCA, Chartered Accountant, Mayiladuthurai is the internal financial auditor for the college. The annual internal audit is being conducted by auditor by checking all financial items and systems associated with the finance. He submits the findings and suggestions in the form of report at the end of every financial year to the college. The internal audit makes the college record the transactions error free and helps to identify the process system that leads to mistakes. The college receives funds from government and government funding agencies such as MHRD, UGC, DST, MoEN, CSIR, and hence mandatory government audits by officials of Joint Directorate of Collegiate Education and the office of Accountant General, (A E), Tamil Nadu are undertaken. Apart from this, the activities carried out by the college through special funds received from the funding agencies are audited separately by the Chartered Accountant as per the agencies concerned. The utilization certificate along with the audited accounts is submitted to the agencies concerned. Auditor Objections are dealt whenever auditing takes place. 7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Practice 1: Sharpening the Employability Skills and Enhancing the Placement Opportunities
Goal: Many students lack employability skill due to inadequate practical knowledge, lack of exposure, inhibition to talk. Purpose is to sharpen the soft skills to perform well in interview and to get placement.
Processes: Students are provided trainings to understand different types of employability skills. **Practice:** Students are asked to enrol in intensive soft skill training with 1520 resource persons with different expertise. Students understand different soft skills through experiential learning. **Evidence:** Students developed confidence and attend many campus placement interviews. **Experience** boosted students' self-reliance tremendously. Participation in the course enhanced the healthy competitions among the students and increased interpersonal communications to establish new friendship and ultimately made them to join in the job. **Conduction** of the course prior to interview made them to get placements easily. **Problem faced:** Time for conducting course is extremely restricted and students found stressful amidst working days and caused inconvenience to part-time job holders. The financial constrain became significant for economically backward gradates. COVID pandemic situation disrupted the activities particularly the campus interviews and drives.
Resource required: To reduce the financial constrain and to make the students to attend the training CSR support are obtained. Further, students need to stay long hours during the course time.

Practice 2: Promoting Social Responsibility and Character Building of the Students
Goal: Aims to inculcate among students the desire to serve for community and shape their character. Students are from different level of economic and social status. Most of the parents make students to be extremely comfortable which makes students to think selfishly. They should understand their social responsibilities to serve to community.
Processes: Students are asked to enrol any one of the service organizations. Make them to understand purpose and necessity of social service and ways of providing service. Student visited adopted villages to understand life style and socioeconomic status of the people. **Practice:** Students are asked to attend many day camps to understand services which villagers require. Based on their requirements students make plan and execute community services. **Evidence:** Student planted saplings along with the villagers near to their dwellings. Also students assessed people status and suitability of getting funds from the Government schemes, loans, etc. Students conducted awareness rally, distribution of bit notices, discussion with the villagers, etc. **Problem faced:** Time spent for the service is inadequate. Availability of villagers without prior information curtails contact hours and continuous processing and monitoring. The COVID pandemic situation prevented many of the offline field activities. However, the students started the webinar series with the support of IQAC on every Saturday evening 5.00 to 6.00 pm titled as "Enthusiastic Student: Knowledge Resource" which crosses its 40th series of webinar. The students use this platform to extend their social responsibility to the society and developing the characters of co-operation, appreciating and motivating the peers, leadership, enhancing the self-esteem, etc., **Resource required:** Financial support is restricted. Logistic/travel support to the village is major constrain.
